## DETAILED ACTION

### ***Allowable Subject Matter***

Claims 1-9, 12-14, and 17-22 are allowed over the prior art of record as amended in the 10/27/2009 reply.

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose either singly or in combination the claimed device of a cannula that inserts a subcutaneous infusion device into a subcutaneous layer of skin of a patient. The device can include a housing with an internal cavity, as well as a needle coupled to the housing. The needle is coupled to a cannula of a subcutaneous infusion device. A member can move the needle and upon full introduction of the needle and associated cannula of the subcutaneous infusion device into a subcutaneous layer of skin of a patient, the member is automatically actuated to move the needle into the internal cavity of the housing into the retracted state while leaving the cannula of the subcutaneous infusion device in the subcutaneous layer of skin of the patient.

The closest prior art of record is Mogensen et al. (USPN6,830,562) and Begley (USPN4,805,791), however these references do not disclose the device as claimed or described above.

Regarding claims 1, 9, 14, and 17, the closest prior art of record fails to teach among all the limitations or render obvious the specifics of the trigger mechanism that retracts the needle after introduction into the patient.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
